Solutions**

Design & Build

**Smart & Green
Performance
Contracting**

Property & Facility Solutions, a **core pillar of UEM Edgenta's asset management arm**. Going beyond the traditional operations & maintenance, our expertise encompasses the entire building lifecycle. **From retrofits and refurbishments to renovations and upgrades, we transform buildings into energy-efficient, green-certified smart spaces.**

“We are on a mission to usher your building into the future.”

Guiding you along a **sustainability and technology journey** ensuring compliance with ESG standards. We create **modern, cloud-connected intelligent buildings** with autonomous capabilities catering to every aspect of your building's needs.

Our comprehensive, end-to-end approach leverages years of experience and data-driven insights. This empowers us to deliver best-in-class service assisting you to make **informed decisions, optimize operations, reduce costs, and achieve peak performance.**

We embrace the solutions **“building-as-a-service” concept, prioritizing the well-being and comfort of the people who inhabit these spaces.** Our meticulously designed services cater to their needs while creating a thriving-built environment.
