

OPUS Consultants Bags Institution of Engineers Malaysia Award for Its Contribution to The Engineering Industry in Malaysia

KUALA LUMPUR, 23 July – OPUS Consultants (M) Sdn Bhd (“OPUS Consultants”), Malaysia’s leading engineering and asset management consultancy firm, a wholly-owned subsidiary of UEM Edgenta Berhad (“UEM Edgenta” or the “Company”) was recently conferred the Institution of Engineers Malaysia (“IEM”) Award 2022, for their contribution to the Engineering Industry in Malaysia within the Asset Management-Industries category. Through stringent ratings and judging on capabilities and its contribution to nation-building over three decades and its ability to deliver mega projects worth over billions namely, major highways and roads, airports, urban transit, built environment and Malaysia’s key infrastructure projects. This new accolade places OPUS Consultants a notch above market players in the Asset Management realm.

“I believe that this award is a testament to OPUS Consultants’ dedication in delivering and managing mega infrastructure projects over the years and its commitment to stay at the forefront of asset management infrastructure in contributing to the nation building agenda in Malaysia,” said Syahrudin Samsudin, Managing Director/Chief Executive Officer of UEM Edgenta.

“It is an honour to receive this esteemed conferment and together with my team at OPUS Consultants, we will continue to contribute to the advancement of Engineering in Malaysia as well as Internationally. Staying true to our tagline “Delivering with Distinction”, we have been veritable to our words by successfully delivering national infrastructures, both road and rail projects for the nation,” said Ir. Dr. Tony Chan, Managing Director of OPUS Consultants.

OPUS Consultants is reputed to have delivered projects which contributed to the infrastructure landscape change in Malaysia with its legacy imprinted on the North-South Expressway, PUTRA LRT2, Kelana Jaya and Ampang Line LRT Extension, KTMB Electrified Double Tracks which stretches from Rawang-Ipoh and Ipoh-Padang Besar, the Malaysia-Singapore Second Crossing, the Cyberjaya Development and the list goes on.

The market leader in engineering and asset management consultancy currently manages the lifecycle of more than 4,000 km (four thousand kilometres) of toll expressways, road construction and upgrading projects in Sabah and Sarawak. Their methodical approach and full suite of services are designed to enhance clients’ assets by facilitating clients in making better and more informed decisions by providing innovative yet practical solutions for large-scale infrastructure and transportation projects which positions them at the forefront of the Asset Consultancy industry.
