## Sanitisation & Disinfection Services | SDPro Coating Treatment

Edgenta Property & Facility Solutions offers high-quality environmental and infection control services across the region. With more than **20 years of experience**, we deliver value-added results and exceed expectations by providing services beyond standards, and ensuring safety across our operations that are beneficial to our clients.

Our services and treatments are in accordance with guidelines from the Ministry of Health (MoH) Malaysia, specifically engineered to combat against infectious viruses such as **COVID-19, H1N1, SARS and other infectious viruses**.

### Sanitisation & Disinfection Services

#### Benefits

-  Prevents the risk of infectious diseases that can cause illnesses
-  Increases hygiene by removing germs, dirt and impurities from surfaces
-  Provides assurance and peace of mind to all building occupants
-  Ensures safety measures for business continuity purposes

### SDPro Coating Treatment

It is a protective antimicrobial-based coating for surfaces that is eco-friendly, safe and certified with a Gold Standard US EPA certification.

#### Benefits

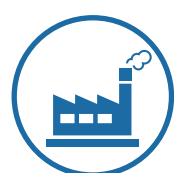

-  Prevents germ re-contamination
-  100% effective against a broad spectrum of harmful germs, bacteria, fungi, algae, molds and infectious viruses
-  Guaranteed 1 year protection with Adenosine Triphosphate\* (ATP) level below 100
-  Engineered to withstand greater levels of wear and tear including chemical cleaners

\*ATP is a quality control method of measuring actively growing microorganisms. ATP level requirement for an Intensive Care Unit (ICU) of a Hospital is less than 100.
