

Health and Hygiene Management

Be assured of your workplace health and hygiene. Drive your business continuity and productivity with a peace of mind.

Solutions To Keep Your Stakeholders' Anxieties At Bay

View the indoor air quality (IAQ) performance of your building portfolio in real-time. With live dashboards, corrective measures can be taken based on actionable insights.

- Real-time readings of air quality factors
- Automated alerts

IAQ Monitoring System

“The World Health organization (WHO) and Centers for Disease Control and Prevention in the United States (US CDC) recently acknowledged that aerosols carrying the virus can “remain suspended in the air”

Health & Hygiene Management

Sanitisation & Disinfection

We implement measures to eliminate and prevent viral transmission at the workplace:

- High touch point decontamination
- Disinfection with antimicrobial spray
- Hand sanitisation station
- Social distancing markers

DID YOU KNOW:

COVID-19 mainly spreads from person to person, but it can also be left on objects and surfaces.

(Source: WHO)

Thermal Scanning System

Our solution provides pre-emptive measures against the spread of infections. It automates screening for unencumbered access and maintains social distancing.

- Contactless scanning
- Real-time simultaneous readings
- Facial recognition
